

District Site-Based Decision Making Committee Meeting

October 15, 2015

MINUTES

Becky Trojczak, Executive Director of Federal & State Programs opened the meeting by welcoming new members and asked them to stand up and introduce themselves.

1. Required Improvement Performance Objectives – CIP/DIP/CNA

The CIP (Campus Improvement Plan), DIP (District Improvement Plan), and CNA (Comprehensive Needs Assessment) takes a little time to compile. We gather information from our district scores and safety guidelines. There are five goals set by the Board used in the DIP that we use as a guide. We will start working on these plans in February.

2. Professional Development Trainings

 Instructional Coaches' Trainings

 RtI (Response to Intervention)

 Writing

Our district is focusing on writing because of low scores in this area.

 TEKS Deconstruction with David Hill

TEKS (Texas Essential Knowledge and Skills)

3. Parental Involvement Conference

 Arlington, TX / December 10-12, 2015

Title I, Part A can send 1-2 parents from each Title I campus to this conference. Last year was one of the smallest groups to attend, there were 12 parents. We never turn a parent down who is interested in going. Parents share the information they learn from the conference at parent meetings on their campuses.

4. Highly Qualified – 100%

Every teacher in every classroom is highly qualified this year. Eddie Salcido has done an amazing job.

5. T.A.I.S. Process

 Ongoing

A TAIS (Texas Intervention Accountability System) plan has to be written if a school is in need of improvement because of missing a system safeguard or low performance in other areas. Executive Directors of Schools, Stephanie Free and Farrah Gomez, have been working hard on this time consuming plan.

6. Next Meeting

 Thursday, November 12 at 4:15 pm
